

ESMO SUMMIT AMERICAS: ONCOLOGY UPDATES - FROM EVIDENCE TO PRACTICE

NOV 6-8, 2015
FONTAINEBLEAU HOTEL
MIAMI, FLORIDA, USA

OncologyEducation.com is pleased to present The ESMO Americas Summit, an official ESMO® Summit Meeting, a program licensed by the European Society for Medical Oncology. This international meeting will highlight the most significant, practice-changing data to emerge from the European Society of Medical Oncology's Annual Conference (ESMO 2015) and put it into context for an audience of oncology professionals from across the Americas. As part of the conference, several panel-type symposia will also be organized, with focus on integrating the evidence into clinical practice for key tumour sites and to address regional differences in practice and patient management guidelines.

OncologyEducation.com is a comprehensive resource providing evidence-based educational content exclusively developed and authored by a leading international Faculty of oncology physicians. All content focuses on presenting timely, unbiased information for the oncology community and includes reports on recent advances in literature and clinical trials, conference updates and presentations, and disease-specific information, all of which are delivered through integrated online and mobile platforms. Accredited Continuing Medical Education (CME) events are hosted several times a year throughout the world and online, and focus on the latest scientific information for improvements in standards of care in cancer management and treatment.

SCIENTIFIC COMMITTEE

Carlos Barrios, MD, Brazil
Scott Berry, MD, MHSc, Canada
